

Hi! I'm Vaidehi and I'm the new Careers Advisor. I've created this pack of resources and opportunities for you – I know it can be overwhelming as there is a lot of information however do take some time to have a read and find opportunities *relevant to you* – whether this is Virtual Work Experience or websites or courses to enhance your skills. There is something for everyone!

If you require any support, please email me: [VRanavaya@nmat.org.uk](mailto:VRanavaya@nmat.org.uk)

## This pack covers:

- Virtual Work Experience guides, resources and opportunities (and useful websites to register!)
- Other Year 12 and 13 opportunities
- Useful websites and resources for Career Exploration

## Virtual Work Experience:

### What is it?

Virtual work experience, also referred to as online, remote or digital, provides young people with the opportunity to gain experience in the workplace, develop their skills, boost their employability and explore new industries and job roles. It's a broad term and can include any opportunity which provides young people with an insight into what it's like to work in an industry or job role while at home. Most virtual work experiences range from half a day to one week.

### Benefits:

**Possibilities!** Location does not need to be a limiting factor which opens many possibilities to explore new jobs and industries in areas that may not have been possible under face to face arrangements.

**It can be free!** The majority of virtual work experience placements are free, although some employers charge for the opportunity; working from home will also mean there won't be travel related costs.

**Future proof!** Remote working is likely to be important to many businesses in the future and learning how to conduct business and work online will develop extremely valuable skills for the modern workplace.

**Transferable skills!** It's not always easy working from home and taking part in virtual work experience placements will help to develop those soft skills that all employers are seeking, such as organisation, time management and self-motivation, digital competency, etc.

**Knowing what's right (or what isn't)** Understanding what a job or a career entails might help to make decisions about whether or not that role is right for the future. Understand what you didn't enjoy is helpful.
